

第 85 卷 索 引

A		
<i>Acinetobacter baumannii</i>	340, 501	chronic obstructive pulmonary disease 670
<i>Acinetobacter</i> spp.	340	chronic pulmonary aspergillosis 333, 644
acute infection	268	clinical manifestation 638
acute renal failure	268	communication 620
<i>Aerococcus urinae</i>	678	CTX-M-14 347
<i>Aeromonas sobria</i>	512	cyclosporiasis 139
AIDS	54	D
air cleaner	537	disseminated gonococcal infection 370
albendazole	520	disseminated infection 176
anal cancer	658	drug resistance 49, 227, 355, 652
anal pap smear	658	drug susceptibility 26, 155
antimicrobial activity	244	E
antimicrobial agent	360	early detection 8
antimicrobial resistance	494	early diagnosis 166
antimicrobial stewardship	494	electronic database 494
antimicrobial usage	494	electronic medical record 620
aortic aneurysm	280	emphysematous cystitis 674
asthma	144	emphysematous pyelonephritis 674
atherosclerosis	384	encephalopathy 272
avian influenza H5N1	139	<i>Enterobius vermicularis</i> 520
B		<i>Enterococcus faecium</i> 380
bacterial meningitis	150	enterohemorrhagic <i>Escherichia coli</i> 540, 664
BCG	176	(EHEC) 540, 664
biofilm	333	epidemiology 256
bioterrorism	632	<i>Escherichia coli</i> 347
bronchial asthma	670	extended-spectrum β-lactamase (ESBL) 347, 355
bronchoalveolar lavage	172	extended-spectrum β-lactamase-producing <i>Escherichia coli</i> 481
C		F
calcineurin	333	<i>FKS2</i> gene 49
<i>Candida glabrata</i>	49, 333	G
ceftriaxone	150	G-serotype 16
chickenpox	632	gastrointestinal bleeding 284
chikungunya fever	139	gonococcal arthritis 370
child	26, 227, 638, 682	group B <i>Streptococcus</i> 155
<i>Chlamydia trachomatis</i>	1	group C <i>Streptococcus</i> 508
cholera	139	
CHROMagar STEC	664	

H				
<i>Haemophilus influenzae</i>	26	meningitis	26, 682	
hepatitis B surface antigen	21	meropenem	150	
heptavalent pneumococcal conjugate vaccine	42	MIC	386	
human immunodeficiency virus (HIV)		micafungin	49	
	166, 268, 384, 658	MR vaccine	250	
hypermucoviscosity	366	MRSA	488	
hyponatremia	638	multi-drug resistance	340, 501	
hypothermia	380	multiplex PCR	31	
I			mutation	
immunogenicity	42, 250	<i>Mycobacterium intracellulare</i>		
immunomagnetic beads	540	<i>Mycoplasma hominis</i>	527	
immunosuppression	532	<i>Mycoplasma pneumoniae</i>	275	
inactivation	537	Mycotic aortic aneurysm	652	
infant	42, 481	myomectomy	515	
infection prevention	620	N		
infective endocarditis	678	nalidixic acid	275	
influenza	537	national health insurance	355	
influenza (H1N1) 2009	8, 37, 144, 172, 272, 670	necrotizing fasciitis	494	
information technology	620	<i>Neisseria gonorrhoeae</i>	512	
invasive infection	26	neonate	1, 360	
itraconazole	644	neutralizing (NT) antibody	155	
J			nontuberculous mycobacteriosis	
Japanese spotted fever	180, 638	nontypeable <i>Haemophilus influenzae</i>		
JP-1 subtype	626	nonwoven fabric	523, 527	
JP-2 subtype	626	norovirus	227	
K			nosocomial infection	
Kaposi's sarcoma	54	nalidixic acid		
Kawasaki disease	638	neutralizing (NT) antibody	184	
<i>Klebsiella pneumoniae</i>	366	nontuberculous mycobacteriosis	347	
L			O	
<i>Legionella pneumonia</i>	284	<i>Orientia tsutsugamushi</i>	626	
<i>Legionella pneumophila</i>	373	osteomyelitis	508	
linezolid	386	osteoporosis	384	
liposomal doxorubicin	54	outbreak	256, 340	
liver abscess	366	P		
M			pandemic	
macrolide	652	panipenem/betamipron		
measles	256, 263	PCR	37	
		peritonitis	150	
		pharmacy	184, 678	
		Phase 3 immunization	275	
		Phase 4 immunization	8	
		photocatalysis	250	
		phylogenetic analysis	250	
		pneumonia	244	
			238	
			144, 380	

prescription	8, 632	severe combined immunodeficiency (SCID)	176
prevention	166	sexual partner	166
prognosis	488	<i>Staphylococcus aureus</i>	386
pyrantel pamoate	520	strand displacement amplification	1
R			
rabies	139	<i>Streptococcus dysgalactiae</i> subsp. <i>equisimilis</i>	508
rabies virus	238	<i>Streptococcus pneumoniae</i>	42, 515
rapid diagnosis	31, 172	surveillance	360, 488, 620
real-time PCR	1, 652	susceptibility	360, 501
respiratory infection	373	syndromic surveillance	8, 632
respiratory syncytial (RS) virus	682	T	
respiratory virus	31	titanium dioxide	244
rhabdomyolysis	268	tocilizumab	523
rheumatic disease	532	<i>Trichosporon asahii</i>	532
rheumatoid arthritis	523	typhoid fever	139
risk factor	488	U	
rotavirus	16	urinary tract infection	481
S			
safety	42	V	
<i>Salmonella</i>	280, 355	vaccination	263
school teacher	263	vaccine	161, 227
sepsis	512	vaccine failure	256
serogroup 3	373	varicella	161
serotype	155	vertebral osteomyelitis	527
serotype Karp	626	virus propagation	670
